

THE CHOICE IS YOURS

MAKE 2019 YOUR YEAR TO QUIT

DID YOU KNOW

According to World Health Organization tobacco kills more than 7 million people each year. More than 6 million of those deaths are the result of direct tobacco use while around 890,000 are the result of non-smokers being exposed to second-hand smoke.

Tobacco use not only reduces your life expectancy but your quality of life as well. Many medical conditions caused by smoking can result not just in death, but in living for years with disabling health problems.

**CHOOSE HEALTH,
NOT TOBACCO**

IT'S NEVER TOO LATE TO QUIT SMOKING
